

THE KELOWNA COURIER

AND OKANAGAN ORCHARDIST

VOLUME 17

Kelowna, British Columbia, Thursday, July 21st, 1921

NUMBER 48

REPORT ON CROP AND WEATHER CONDITIONS

Horticultural Branch, Provincial Department of Agriculture

Vernon, B.C., July 16, 1921.
Vancouver Islands and Gulf Islands. The weather has turned very warm during the past week. The strawberry crop is practically over. A few odd crates are being picked for the local market and some stuff is still being picked for jam purposes. The Gordon Head Fruit Growers' Association and the Saanich Fruit Growers' Association each shipped their last car on the 8th inst. making a total of 26 cars for Gordon Head and 24 for Saanich.

Apples are sizing well and, if anything, look a little better than they did three weeks ago. However, there are a great many apples which are deformed owing to aphid attack, and scab on the fruit is also very prevalent.

Hay is very general on the Island at the present time and growers who have waited until now to cut have been more fortunate than those who cut earlier. The crop is very good and will be harvested in excellent condition. Other farm crops are looking fine and full wheat is beginning to ripen.

Lower Mainland. The weather has much improved, and the prospects are for a fine spell. Strawberries are just about over, and shipments have fallen off. Raspberries are in full swing and with the fine weather the crop outlook is very satisfactory. Black currants, red currants, and gooseberries are mostly going to the cannery. Loganberries are being shipped in fair quantity.

Hay is general all through the Valley. The following gentlemen are members of the Regatta Committee and will be glad to give any information. Messrs. J. F. Burne, H. S. Atkinson, St. G. P. Baldwin, D. W. Crowley, J. B. Knowles, W. J. Mantle, G. A. Meikle, A. G. McCosh, W. C. Renfrew, W. M. Crawford, J. S. Boucher, A. P. Chappell, R. Whillis, A. J. Jones, R. Burch, A. Edwards and H. G. M. Wilson, secretary.

Look out for the posters and preliminary programmes, and please make a note of the dates, Wednesday and Thursday, 10th and 11th August.

Salmon Arm and Main Line Points. The strawberry crop is practically over here. The yield was not as good as expected, probably more damage having been done by the late frosts than was anticipated. Raspberries and loganberries are coming in in fair quantities, but both these crops are ripening somewhat slowly. The berries are sizing well, and at present moisture conditions are good, but unless there is rain within the next week, it is doubtful if the late maturing berries will fill out as they should. On some patches the first shipments were fully three weeks earlier than last year.

Sweet and sour cherries are moving, also red and black currants. Tree fruits are sizing satisfactorily. Hay is in good swing and the crop is good.

Vernon. Weather conditions during the past week have improved considerably, warm bright weather now prevailing. This is having the effect of checking up to a great extent the running of Fire Blight and with existing conditions this disease should now improve. All tree fruits are sizing up fast, and Early Transparent and Duchess should be moving fairly early in the month of August.

Cherry movements are at their peak and from now on shipments will gradually tail off. Shipments are proving to be heavier than anticipated earlier in the season. The fruit is of fine quality, which has brought up the tonnage considerably, and very little of the fruit will find its way to the by-products plants.

It is expected that apricots will be moving in the Southern end of the Valley in about another week or ten days.

Vegetables are moving out in fairly heavy shipments. Early potatoes are being dug quite freely, but at the prevailing prices it does not appear a very attractive proposition to the grower as the tonnage per acre of this vegetable is not heavy. All ground crops are in splendid condition.

Kelowna. Weather conditions have greatly improved during the past week. The spread of Fire Blight is now checking up on account of the weather, considerable cutting of this disease being done by the growers.

Cherries are moving very fast and are at their peak. Bings and Lamberts may possibly be a little lighter than last year but are of very fine quality. Windfall cherries are a very heavy crop. Sour and sub-acids are also very heavy and it is anticipated that total shipments will run over 1920 crop.

Early vegetables are moving in large quantities. All ground crops are looking well. Tomatoes are coming along in splendid shape.

Powdery Mildew is spreading considerably in some sections and evidences of this trouble are showing up on the fruit, and it already causing rusting of the apples. It would be advisable for growers where this disease is prevalent to make another application of Lime Sulphur or Atomic Sulphur. If danger of burning at this period is feared, Atomic Sulphur should be used. 8-8.50 formula, self-boiled sulphur. If one is not afraid of burning sulphur injury, ordinary lime sulphur at the rate of 1-50 dilution could be used.

Penticton and Keremeos. For the past week the weather has been fine and warm in the Keremeos district. Sweet cherries are nearly done. Some early "Mayflower" peaches are ready; also early plums. Fruit is sizing up well and in many cases propping will start about next week. Second crop of alfalfa has been harvested in good shape.

The bulk of the cherries in the Penticton district is over and should be finished up early next week. Some apricots are being shipped from Osoyo.

(Continued on Page 7)

BIG PROGRAMME BEING ARRANGED FOR REGATTA

Over Fifty Events Scheduled for the Fifteenth Annual Event on 10th and 11th August

The fifteenth annual Kelowna Regatta, to be held on Wednesday and Thursday, 10th and 11th August, shows every indication of being larger and more entertaining than any previous aquatic gala held on the lake. The Regatta Committee have decided to revert to the former practice of having two days of water sports, omitting the field events, which now come more within the sphere of the Kelowna Amateur Athletic Association and which that body has clearly demonstrated it can ably handle.

A very comprehensive programme has been arranged, including several new features and totalling over fifty events. There will be swimming, diving, water polo, rowing and launch races, canoeing, sculling, sailing and alleged comic events, to say nothing of band concerts, confetti carnivals and regatta dances.

Kelowna swimming and rowing talent will have to look to their laurels, for at least one Vancouver senior four is intent upon carrying off the rowing championship of Okanagan Lake. In addition, a quartette of Vancouver boys under 16 years, and probably one or two seniors, will be here to try their skill with the fresh water lads.

Penticton is also anxious to get into the game, and will send along three war canoe crews, men, ladies and cadets, also a water polo team. Kelowna, however, is prepared for all these onslaughts, and some very interesting contests will result. The Regatta Committee hope further to arrange a very special attraction, but negotiations are not yet complete, and the news will have to be held until a later date.

The following gentlemen are members of the Regatta Committee and will be glad to give any information. Messrs. J. F. Burne, H. S. Atkinson, St. G. P. Baldwin, D. W. Crowley, J. B. Knowles, W. J. Mantle, G. A. Meikle, A. G. McCosh, W. C. Renfrew, W. M. Crawford, J. S. Boucher, A. P. Chappell, R. Whillis, A. J. Jones, R. Burch, A. Edwards and H. G. M. Wilson, secretary.

Look out for the posters and preliminary programmes, and please make a note of the dates, Wednesday and Thursday, 10th and 11th August.

ODDFELLOWS AND REBEK.
AHS PICNIC IN THE PARK

Pleasant Outing and Sports Enjoyed by Young and Old

The second annual picnic of the Oddfellow and Rebekah Lodges of the Okanagan was held in the City Park on Thursday. There was a goodly representation of brethren and sisters from Kelowna and district, and from Enderby, Armstrong lake points. Favored with the finest of weather, all enjoyed a very pleasant outing and entered into the programme of sports with hearty zest.

Next year's picnic will be held at Vernon. The prize winners in the various events, of whose names records were kept, were as follows:

100 yds. Race, Oddfellows—1, Bro. Marshall, Armstrong.
Tug of War—Kelowna team.

Sack Race, 50 yds.—1, G. V. Lampard, Vernon.
Relay Race, 100 yds.—Kelowna team.

Nail Driving Contest—1, Mrs. W. Patterson.
100 yds. Race, girls under 18—Mary Fraser, Kelowna; 2, Agnes Love, Penticton.

100 yds. Race, boys under 18—1, Theodore Marr.
Biscuit Race—1, Mrs. Sworder, Vernon.

Mixed Relay Race, two Oddfellows and two Rebekahs in each team, 100 yds.—1, Armstrong team.
50 yds. Race, Rebekahs over 30—1, Mrs. Love, Penticton.

50 yds. Race, Oddfellows over 60—Tie between M. Byrns, Kelowna and A. Patterson, Kelowna.

SALVATION ARMY BAND TO TOUR THE OKANAGAN

Will Visit Kelowna on August 2nd

Preparations are well in hand for the visit of the Salvation Army Citadel Band of Vancouver, on the occasion of their tour through the Okanagan Valley. The Band will leave Vancouver on July 30, arriving at Penticton the following day and giving special concerts there. They will then proceed to Naramata, where they are to take part in a garden party which is being arranged by the Women's Institute. They will arrive at Kelowna at 8.45 a.m. on Tuesday, August 2, and will leave at the same hour the following day. Their programme here includes playing at the Hospital at 11 a.m., in the Park at 3 p.m. and in the Salvation Hall at 8 p.m.

The members of the Band are said to be accomplished musicians, and they will undoubtedly receive a cordial welcome in Kelowna.

WESTBANK

Mr. Mackay, accompanied by G. E. Brown and H. E. Smith, made a business trip to Kelowna on Wednesday.

A party of young people motored to Peachland last Wednesday evening. The truck was used was Mr. S. Mackay's.

The irrigation water here seems to be shut off quite frequently owing to the wash-outs on the main flume; but this disadvantage will be overcome by the new system which is to be built next year.

The weekly picnic was better attended than the previous ones and a very pleasant supper was given on the beach. After supper a game of prisoner's base was played, ladies vs. the men. The game was played on the beach road, and one young man, seeing he was going to be caught took refuge in the lake. He no sooner hit the water than he tripped and disappeared beneath the surface, when he came out his countenance was considerably changed because he was wet to the skin. The game did not proceed after that, but everyone had a good laugh at his expense. As fortune had it his way, he had no Jane to see home or he might have caught his death of dampness.

Mr. Thacker was a passenger to Kelowna on Saturday.

Miss Mackay arrived here on Thursday from her school in the East; she intends to spend the summer with her parents, and take in the sights of the city.

The Westbank War Monument has been erected here, and stands at the cross roads of the town, and in a very suitable place. The date of the unveiling has been set for Aug. 4, the anniversary of the Great War. There are many proceedings for the occasion, among which is the parade of the Boy Scouts, and the unfurling of the flag.

It was with great sorrow that the people of Westbank received the sad news of the death of Mr. and Mrs. J. Tolhurst's little son. The funeral services were held in Peachland at 11 a.m. on Sunday.

KELOWNA DISTRICT BASEBALL LEAGUE
Standing of Teams

Team	Played	Won	Lost	Pct.
Glenmore	4	3	1	.750
Rutland	4	3	1	.750
Kelowna	4	0	4	.000

Kelowna Again Defaults
Rutland played Kelowna in town on Tuesday evening. Kelowna again had to suffer default through being late and having half the team made up of senior players. An exhibition game was played which resulted in an unsatisfactory tie at the end of the fourth inning, on account of darkness interfering with further play. The batteries were Kelowna: DeHart, Harris and Clarke. Rutland: Quigley and Wanless.

Score by Innings.
Rutland 0 0 5 0-5
Kelowna 0 0 1 0-1
Rutland plays Glenmore next Tuesday, at Glenmore, at 6 p.m. This will probably be the deciding game of the season.

BRITISH PRESS COMMENT ON COALITION DEFEAT
LONDON, July 21.—Comment on the defeat of the Coalition government by a vote of 137 to 135 on the government's financial bill, on Tuesday, is left mostly to political correspondents. The "Times," however, says editorially that the adverse vote, is in fact a revolt and the ministry should know that it is, to say the least, unwise to treat such manifestations with contempt. Their action, it says, is not merely high-handed but a direct slight upon the House. The "Manchester Guardian" says the government observed the ritual of the game in these defeats, for it is seldom more than a game nowadays, adding: "It is a long time since when the government stood in real danger of being defeated on important questions of principle or felt compelled to treat an adverse vote as a real vote of censure."

NEGOTIATIONS ON IRISH QUESTION ARE FRUITLESS
LONDON, July 21.—A basis for a conference to attempt to effect a settlement of the Irish question has not been found. An official communiqué issued after a meeting today between Lloyd George, Valera and Premier Lloyd George, who have been conferring with the object of finding such a basis. Mr. De Valera and his colleagues, adds the communiqué, will return to Dublin tomorrow and he will communicate with Mr. Lloyd George after further discussion with his followers there.

APACHES ARE BUSY IN MONTREAL SUBURBS
MONTREAL, July 21.—According to various reports to police headquarters, Maisonneuve and Viaville, ent experiencing a veritable "reign of terror." Women and girls are afraid to venture outdoors at night except for fear of being assailed by thugs and degenerates, who seem to abound in the vicinity.

GLENMORE

Mr. and Mrs. Hancock, of Naramata were visitors in the Valley on Thursday, having motored down from Vernon.

Mr. E. LeQueune left on Monday for a vacation at the Coast.

Tuesday, July 26th, Glenmore and Rutland play, on the Glenmore ground, what will probably be the last game of the season, at 6 p.m. A good crowd of supporters will be there, we hope.

Glenmore dances appear to be so popular that another one has been planned under the auspices of the U.F.B.C. Glenmore Local, for Friday, August 5th.

A 1921 car license plate has been found on the Glenmore Road.

We sometimes wonder if folks understand what is meant by a Pound District. In a Pound District no animal shall be on the road unattended. Any resident, also the Poundkeeper, is responsible for any animal so straying. Unfortunately our Poundkeeper and ranchers are too busy to do this, and they impound them. When one sees cows pushing their heads through fences, and hears the post snags that would have lasted months longer, one wishes that ranchers were not too busy to attend to this. Cattle owners are heard using anything but gentlemanly language when they find their animals impounded, but how about the orchard, especially at this season, with about 30 head of cattle in it? Wouldn't it take them long to destroy a hundred dollars worth of fruit. Last week a number like this were discovered in time. The fact we want to dig out is that no animal has a right to be anywhere in a Pound District without being under control. Impound them.

FRENCH REINFORCEMENTS FOR UPPER SILESIA
PARIS, July 21.—It is declared in official circles this morning that France will send reinforcements to Upper Silesia whether or not Great Britain joins in the movement. The French action, it is stated, is to ensure the safety of the French troops already on the ground there. Premier Briand sent a note yesterday in reply to the British note on the Silesian question, that the Supreme Council could serve any useful purpose by convening before measures are taken to assure order and to provide for the security of the Allied troops now in the district.

The news received here today from Oppeln is far from reassuring. The attitude of the German press, as interpreted by French dispatches, is increasingly provocative. France, it is declared, recognizes that danger well as from the Germans, making it doubly necessary, according to the French view, to increase the strength of the Allied troops.

RAILWAY EMPLOYEES ACCEPT REDUCTION IN WAGES
MONTREAL, July 21.—Seventy thousand Canadian railway employees have accepted a reduction in wages equal to an average of twelve per cent. Maintenance of way men numbering close to 40,000 have signed an agreement to take the reduced wage and, while no official acceptance has yet been signified by the train operating employees, it is practically certain that the reduced rate of wages. The agreement as issued today is purely tentative and provides for further negotiations in respect to wages and labour.

BANK OF ENGLAND REDUCES DISCOUNT RATE
LONDON, July 21.—The Bank of England reduced its rate of discount today from six per cent to five and one-half. The announcement of the reduction removed the uncertainty which has been prevalent in the money market during the past few weeks. The chief factor paving the way to reduction in the rate has been cheaper money, which has been brought about by stagnation in trade and the inflation of credit through government borrowing.

SEED COMPANY LOSES BY DISASTROUS FIRE
CHATHAM, Ont., July 21.—One of the most disastrous fires of the year occurred in this city yesterday afternoon, when the big elevator at the plant of the Rennie Seed Company, together with machinery and equipment, was totally destroyed. The loss is estimated at between \$75,000 and \$100,000.

LONDON THEATRE-GOERS TO HAVE PRE-WAR PRIVILEGE
LONDON, July 21.—London is to have one of its pre-war institutions, supper at a restaurant after attending the theatre, restored under the new Licensing Act drawn up by the government.

This year's crop of cherries at Penticton fell considerably below that of last year, the total packed being estimated at 10,000 boxes as compared with 17,100 last year. On the other hand, the quality of the fruit was very much better than in any previous year.

ASK FOR REMOVAL OF DAM ON OKANAGAN RIVER

Owners of Land Affected by Recurrent Floods Send Petition to Ottawa

At the June meeting of the Kelowna Board of Trade Mr. R. B. Kerr made a strong plea for entire removal of the control dam in Okanagan River, and he condemned it as being the cause of the unduly high level of the lake with the consequent evils of flooding of low land and an unpleasant addition to the number of the moquito tribe. His proposal met with equally vigorous opposition, led by Mayor Sutherland, on the ground of pure altruism, the Mayor declaring that, if it were not for the control dam, the dam in permitting the out-flow of the lake to be run off at a regular rate, the sudden rush of water at flood time would wash the settlers along the river out of existence, and their necessity should therefore have more consideration than any temporary discomfort the people of Kelowna might suffer. The general Board responded to this unselfish appeal, and on a division, Mr. Kerr's motion was defeated and the Board was placed on record as in favor of maintaining the dam, provided the control gates in future are opened sufficiently early to lower the lake in advance of its reception of flood water.

A letter recently published in this paper from the pen of Mr. W. J. Cleverly, of Penticton, threw rather different light on the wishes of the owners of land along the Okanagan River in regard to the dam, and certainly would seem to justify the contention of Mr. Kerr that it was constructed without any request from or consultation with the riparian property owners, and did much more harm than good. The land-owners concerned have now taken decided action by petitioning the Minister of Public Works to remove the dam. The petition, which has been signed by forty owners and tenants, summarizes the present situation as follows:

"About twelve years ago dredging operations were begun on the river for the purpose of making it navigable between Okanagan and Skaha Lakes. After the channel had been cleared, a small stationary dam was put at the outlet of Okanagan Lake, thus rendering navigation, even by small boats, impossible. A year ago the present dam, with stop logs, was put in. This dam raised the lake several feet above normal, so that when the stop logs were removed this spring, the river could not carry off the accumulated water, together with the spring freshet, without causing serious damage.

"Opening the dam earlier in the season might lessen but could not obviate the evil, as the channel of the river is so narrow and the course so devious that the entire winter is required to drain off enough water to make the situation safe. Before this dam was put in, our lands were not subject to flood."

This year, almost the entire flat along the river has been flooded since May, resulting in much destruction of crops. One lot-holder places his loss at \$5,000, and several others have experienced losses little less serious.

THE APPLE CROP IN CANADA AND ELSEWHERE
Bulletins issued by the Fruit Commission's Branch, Dominion Department of Agriculture, give estimates of the apple crop in Canada, the United States and Great Britain, based upon conditions as at the end of June.

Canada. The June crop is stated to have been very heavy in British Columbia, and the crop is estimated to yield only ten per cent over that of 1920, but Kelowna growers will not agree with this conclusion, so far as this locality is concerned.

In Ontario the crop has suffered through a very heavy drop and continued dry weather, and is estimated to produce about 80 per cent. of that of last year.

Quebec, New Brunswick and Nova Scotia are all rated as promising yields about ten per cent. in excess of last year. The drop in all these provinces has been heavy, and they have also experienced prolonged dry weather. Prince Edward Island expects a heavy crop.

United States. The crop is now estimated at 108,000,000 bushels compared with 200,000,000 bushels last year and the 10-year average of 183,000,000 bushels. Prospects in the western states are quite good, but, in addition to other unfavorable conditions, the June crop throughout the eastern and central portion of the country has been very heavy. Oregon expects a crop greatly in excess of last year, and the Wenatchee estimate being 15,100 cars and Yakima, 12,500 cars.

Great Britain. British fruit growing districts have also suffered from drought, and it is possible that the crop may be considerably less than seemed likely in June, when indications pointed to a crop above the average. At that time, prospects in the south-eastern counties, the most important divisions, from a competitive standpoint, were reported as satisfactory. Apples were above the average in the west midland counties, although much fruit had fallen owing to drought and cold winds. In the south-western counties a heavy set of fruit had been made and a large crop was expected. Other sections of less importance reported average to good crops.

MATRICULATION RESULTS FOR KELOWNA CENTRE

Names of High School Students Who Were Successful in June Examinations

The results of the June examinations held in the High Schools of the province were announced by the Department of Education on Saturday. Of the 1,546 candidates who presented themselves, 694 passed in all subjects and 394 were granted supplementary examinations. Kathleen Mary Gwendolyn Hardie, of Oak Bay High School, was highest with 872 marks out of a possible 1,000. The following local students were successful:

Kelowna High School. Junior matriculation: maximum marks, 1,000.—Ralph H. Ball, 814; Theodore R. Neish, 750; Isabelle G. Crawford, 720; Dorothy V. Turner, 706; Marion E. Wallace, 697; Donald G. Balsille, 681; Ursula Whitehead, 630; Matilda G. Oakes, 620; Annie M. Wilson, 613; George W. Mantle, 584; John D. Groves, 573. Granted supplementary examinations, 4. Completed junior matriculation, Myra W. Lang, Florence N. Weeks.

Westbank Public School. Third-class, non-professional; maximum marks, 900.—Marion L. Hannam, 474.

ELLISON

The School Trustees held the usual annual meeting on the 9th inst., owing to the fear of considerably increased rates, there was an unusually large attendance of ratepayers. The details of accounts were very carefully gone into and there appears to be nothing to take exception to, and after all the school buildings and premises have to be maintained in a reasonable state of repair. The Trustees for the year are Miss Cottingham, acting secretary, and Messrs. M. Heron and J. P. Miller, with Mr. T. Bultman as auditor. There appears to have been some expression of feeling, as a 90 degrees in the shade remark was overheard among the ratepayers. Quite apart from the fact that Ellison youth may object to be addressed in this unceremonious fashion, we are surprised that such reflections should be made in a democratic country where the State is in charge of the education of the children. However, the hot weather accounts for a good deal these days, and even little angels are liable to become brats as the temperature rises.

The spray material dealers seem to have let us down badly in the matter of black leaf 40. Just when all sorts of aphids are ravaging in the orchards and gardens not a drop of black leaf is to be had. As an alternative we have been using kerosene emulsion prepared by boiling ½ lb. of whale oil soap in 1 gallon water. This is taken off the stove and 2 gallons kerosene (coal oil) added, and must be thoroughly mixed by the spray pump till the solution becomes milky. A gallon of this concentrate is then diluted with 20 gallons of water. This appears to have effectively finished the aphids and not hurt even the young trees. It is best to make tests before using on any large scale.

PRELIMINARY REGATTA ON THURSDAY NEXT
Afternoon Programme Will Be Held As Practice For The Big Event Next Month

A Preliminary Regatta will be held on Thursday, July 28th, starting at 2.30 p.m. A list of events is posted at the Aquatic Pavilion, and every one is welcome to compete. Suitable prizes will be given.

It is hoped that as many aquatic enthusiasts as possible will take part in the events, as the entry list will then be opened for the Annual Regatta to be held on Wednesday and Thursday, 10th and 11th August. In addition, swimmers in the big Regatta handicap events, preliminary programmes of which are now available, will have an opportunity of testing their speed. It is essential that as many entrants as possible for the August Regatta record their times at this preliminary affair, in order to facilitate the duties of the Handicapping Committee.

The Regatta Committee hope that there will be a big attendance of members on Thursday, the 28th inst., for in this way they will encourage the Committee in their larger efforts.

CHANGE IN DATE OF LONDON EXHIBITION
The dates of the Imperial Fruit Exhibition to be held in London, have been changed from November 4-12 to October 28 to November 5. This change to an earlier date will make it more difficult for the Canadian exhibitor to put up an exhibit which will do justice to the quality of the fruit grown in this country, but this added handicap should tend to increase Canadian efforts to be well represented at the exhibition.

There is considerable demand for space in the non-competitive class, and it is very desirable that each fruit growing province and exporters who desire to advertise particular brands should secure space as early as possible.

GIFTS THAT LAST

When collecting a few yards of Summer Tan, you will no doubt require some of the following useful articles suitable for your vacation.

Gillette Safety Razor	\$3.25 up
Waterman Fountain Pen	\$2.50 up
Conklin Fountain Pen	\$3.00 up

BOY SCOUTS' COLUMN

Troop First! Self Last!
Edited by "Pioneer."

Edited by "Pioneer." 19th July, 1921.

The following tests were passed at
Camp before the Commissioner:

Athletic Badge, A. S. M. Parkin-
son; Patrol Leaders J. Groves, E.
Hunter and R. Ball; Second F. Latta,
and Scout C. Cunningham. The fol-
lowing have also nearly completed
the requirements for this badge, but
have still one or two things to do—
Patrol Leader G. Mantle, Second H.
Mantle, and Scouts P. Taylor and
J. Aitken.

First-class Ambulance. Patrol Le-
aders G. Mantle and E. Hunter, and
Second F. Latta and D. Walker.

Other badges earned not before
mentioned were First-class Signall-
ing by Patrol Leader G. Mantle, and
Scouts C. Cunningham, H. Doro and
R. Todd; First-class Swimming by
Scouts E. Harvey and W. Akeroyd
and Second R. Todd; Marksman by
Scout E. Williams, before Mr. Leon
Gillard.

Several Second-class tests were
also passed which completed all the
work for this badge for those taking
the tests. We would ask all Scouts
who have completed their work for
Second-class Badges to notify the
Scoutmaster once, and would also
ask the Scouts who have not com-
pleted theirs to do so by the end of
this month. There is no time like the
present for passing tests, particularly
any of those connected with work in
the water, and we point out that the
Patrol Shield is for work up to the
end of September. The competition
for the Lieut. Governor's Shield ends
with the end of June.

In a recent issue of the column we
mentioned that Scout H. McCarthy
had swum across the lake. We should
also have mentioned that Scout C.
Cunningham had done the same thing
at the same time. We were not a-
ware of this when the previous col-
umn was written.

About a week or so before Camp
a first base baseball glove was left
at Cedar Creek. It must have been
picked up by one of the subsequent
picnic parties, and we should be very
much obliged indeed if the finder
would be good enough to return the
glove to us. While at Camp we also
lost an oak lock which was left some-
where on the site or on the beach.
If anyone has found the same since,
we should also be very glad if they
would return it to us. Another article
to which the same remarks apply
is a haversack which apparently was
dropped from the pack horse some-
where between the Camp and the rail-
road along the route we followed. It
may have been left right up at our
camp at the railroad.

All Scouts who have left any of
their camp equipment at the Club-
room, will please take same away im-
mediately.

In a recent issue of this column we
thanked Mr. "Blank" for a donation
to Camp expenses. The Editor must
apologise for his bad writing, as Mr.
"Blank" was intended to read "Mr. N.
D. McTavish."

Provincial Headquarters are now
endeavouring to publish a monthly
paper for British Columbia Scouts to
be known as the "Pow Wow." A
single subscription is \$1.00 a year, or
10c the single copy, but if several in
a Troop will subscribe to the same
reduction on this can be obtained.
It is intended that it should be the
official medium for Scouts in the
Province, and we should like very
much indeed to see every Scout in
the Troop subscribe to the same.
In Vernon the other day 25 copies
were ordered. The "Pow Wow" is
to be the official Scout paper for Brit-
ish Columbia, as the "Canadian Boy"
is for the whole of Canada. Parents
and boys of Scouts would do the
Scouts and the movement a good turn
by subscribing to both of these pa-
pers. We should be glad if all who
will take the "Pow Wow" would let
us know by this time next week. The
Troop ordering 25 copies will save
\$8.75 on the year's subscription, or in
other words will get each copy for
roughly 5½c instead of 10c. So come
along, 25 Scouts.

We welcome to the district the Rev.
Frank Stanton, who is now in charge
of the Methodist Church at Rutland.
Mr. Stanton has been connected with
the Scouts before, notably at Kere-
mos and Rutland Scouts are fortun-
ate in securing his attendance among
them.

THE MERCHANT IS THE GOAT

Who gets the blame when prices rise?
The Merchant.

Who profits—in the public's eyes.
The Merchant.

And yet, who protests each advance.
And at each price boost looks as-
kance,

As a most serious circumstance?
The Merchant.

Who takes the loss when prices fall?
The Merchant.

Who is the biggest goat of all? The
Merchant.

Who gets his shelves full, at the peak,
Of goods which drop within the week?
Who marks them down without a
squeak?

The Merchant.

Who is the public blaming now? The
Merchant.

Who bears the brunt in all this row?
The Merchant.

Who tries, in spite of meagre sales
To heed the public's frequent wails
For lower prices—and who fails?
The Merchant.

Who donates money in your town?
The Merchant.

Who never turns committees down?
The Merchant.

Whom does your Ladies' Aid first
laud?

Who coughs up for the local band?
Should he refuse, then who is panned?
The Merchant.—Ex.

Civilian members are admitted to
the G.W.V.A. at Armstrong, subject
to ballot and payment of \$7.00 initia-
tion fee and \$1.00 monthly dues, and
are granted full use of the new club
rooms. Twenty civilians have joined
so far.

"How dear to my heart
Are the scenes of my Childhood"

THE old home where we spent so
many happy days—the games we
played with dear old father and mother
looking on.

The old home itself, mellowed with time
is still as well preserved as it was in
our childhood days.

Its preservation is due to the surface
protection which only good paint can
give.

B-H "ENGLISH" 70% Pure White Lead
30% Pure White Zinc
100% Pure Paint

Unequalled in covering capacity—no other brand can equal its record for
permanence. By using this paint of extreme durability your house is protected
for years.

B-H "English" Paint's record for surface saving is the result
of its guaranteed formula—70% of its base is Brandram's
Genuine B.B. White Lead, the world's standard for almost
two hundred years, and 30% pure White Zinc.

Paint your family home with B-H "English" Paint and it will
remain protected.

**Thirty to Forty Per Cent. More
Reading Matter For Every
Member of the Family**

When you subscribe for a Newspaper, what do you buy? Why, "NEWS," of course. If you give the selection of your paper a thought, you will decide on that paper which gives you the MOST NEWS—the biggest value for your money.

In selecting a paper for the average home, there are four people to consider—Mother, Dad, Jack and Mary.

Let's consider Dad first, as he has to "foot the bill." First, Dad wants "all the news of all the world all the time—" told the day it happens. THE WORLD depends upon the Canadian Associated Press and the Associated Press aided by cables, telegrams, and mail-reports from a corps of special correspondents in Ottawa, London, Sydney, Auckland and local points, to supply this general news. Maybe Dad maintains an active interest in sporting events—he'll find from two to four pages every day in THE WORLD; also a four-page pink section every Saturday, offering the latest Sporting News of all sporting events, including golf, covered by the leading writers of America and the Old Country. Then there is the latest information on the "market"—shipping, mining and other industrial features. In fact, everything that Dad wants in his paper, even to a "smile" supplied by Cartoonist LeMessurier's caricatures of current events.

Mother demands a bigger variety—she will carefully scan the Society pages, News from Movie-land by Lillian Gish, and reads with delight "The Reflections of a Bachelor Girl." Perhaps "Quips and Quiddities" may meet with her approval; or, she will read Sherlock Holmes' latest mystery

story, as well as that portion of the current News which is of interest to her.

Jack will turn to the Sporting section to see what Jim Corbett has to say about the prize fights; or, if Babe Ruth is still pounding the old horsehide. And, if he is interested in the pig-skin, why, of course, he will find the full report of the Old Country football games, with a goodly sprinkling of tennis, swimming and other interesting sports. Perhaps he is still interested in the Comics—well, if so, The Katzenjammer Kids, Mutt and Jeff, Little Jimmy, Jiggs, and all the other well-known characters in Comic-land will help to entertain. Undoubtedly, both he and Dad will get a few "kicks" out of the fishing notes at this season of the year.

Mary will want the Comic section first, if she is still in bloomer dresses; and she will insist upon Mother reading the adventures of Uncle Wiggily at bed-time. If Mary has arrived at her 'teen age, she will share the Society News with Mother, and be greatly interested in the News from Photo-playland. Mildred Marshall supplies a regular feature to THE WORLD that will be of interest to Mary. Of course, Mary just loves Lillian Gish,

FREE--FOR ONE WEEK

THE WORLD gives you thirty to 40 per cent. MORE NEWS-- but, it doesn't cost you one cent more than the most ordinary paper--simply send your name and address. We will gladly send sample copies for one week absolutely free. THE WORLD wins its way on merit.

CAUSES OF LOSS OF SOIL PRODUCTIVITY

(Experimental Farms Note)

A soil is productive in proportion to its ability to supply to growing plants the elements required for the plants' development. If we look upon a soil as a bank or storehouse from which something may be drawn, we will realize that the producing power is largely in proportion to what we deposit. Every atom of phosphorus or potash that we remove from a given area of soil leaves the soil just so much poorer. So if we keep on tak-

ing the essential or crop limiting elements from the soil by means of crop removal, the producing capacity of the soil will be reduced, just the same as a cash bank deposit will be reduced if something is drawn out and no corresponding return made. Neglect to return the required elements to any soil will lead to soil poverty. The crop-yielding capacity of a soil may be greatly reduced by poor ploughing, poor tillage, and neglect to practise the best methods of soil management for the district. Autumn ploughing of lands that wash badly during the winter and early spring

frequently causes considerable soil, or soil fertility, loss. Permitting a soil to become matted with the living roots of undesirable plants, such as couch grass, will make any soil unproductive of desirable crops. Neglect to provide proper drainage to give relief from surplus irrigation, seepage or flood waters results in considerable decrease in the productive capacity of soils. The permitting of live stock to run over pastures and tillable fields during the wet periods of the year, when the soil is water soaked, is an all-too-frequent means of reducing grazing and giv-

ing an undesirable puddled to the soil.

Return phosphorus and potash in quantity equal to that removed by the crop. Practise the best cultural methods at the proper time in order that the productive capacity of your soil may not be decreased.

L. STEVENSON,
Superintendent,
Experimental Station,
Sidney, B.C.

Mr. T. C. MacNabb, Superintendent,
C.P.R., Revelstoke, has replied
to the request made by the Boards of
Trade of the Okanagan for a Sunday
boat service during the fruit shipping
season. He states in his letter that
there has always been "more or less"
of a boat service on Sundays, and for
this reason he thinks he can promise
that there will be a Sunday tug ser-
vice, whenever required, and that the
s.s. "Okanagan" will take care of ex-
press shipments on that day. There
is also a programme outlined for a
freight service out of and into the Ok-
anagan on Sunday, but he could not
see that there is any apparent nec-
essity for a passenger train or pass-
enger boat.

copy is preferred.

ADVERTISING RATES
Classified Advertisements—Such as,
For Sale, Lost, Found, Wanted,
etc., under heading "Want Ads."
First insertion, 15 cents per line;
each additional insertion, without
change of matter, 10 cents per line.
Minimum charge per week, 30
cents. Count five words to line.
Each initial and group of not more
than five figures counts as a word.
Filing fee for box numbers, c/o
The Courier, if desired, 10 cents
extra.

Transient and Contract Advertisements—Rates quoted on application.
Legal and Municipal Advertising—
First insertion, 15 cents per line;
each subsequent insertion, 10 cents
per line.
Contract advertisers will please note
that, to insure insertion in the cur-
rent week's issue, all changes of
advertisements must reach this
office by Monday night. This rule
is in the mutual interests of patrons
and publisher, to avoid a congestion
on Wednesday and Thursday and
consequent night work, and to
facilitate publication of The Courier
so as to reach country customers
before Saturday.

THURSDAY, JULY 21, 1921.

ADDITIONAL LOCALS

Mrs. Winston and son Raymond,
who had been visiting Mrs. Gowen,
left yesterday for their home in Van-
couver.
Major-General Sir F. O. W. Loomis,
who commanded one of the Canadian
divisions in France, paid a flying visit
on Monday to his old friends Mr.
and Mrs. C. G. Buck, leaving on Tues-
day morning for the East.

For the information of "An Idle
White Working Staff," which is the
signature to a letter received by us,
it may be reiterated that it is the
policy of the Courier not to publish
letters to the editor under a "nom de
plume." The signature of the writer
must appear for publication.

The members of St. George's
Lodge, A.F. & A.M., and visiting
brethren, headed eighty strong on
Sunday last and, clad in full regalia,
marched to the United Church, where
an eloquent sermon, appropriate to
the occasion was preached by the Rev.
Mr. Graham-Brown.

The lacrosse game scheduled for
Thursday next, July 28th, at Kelowna,
between Kelowna and Armstrong,
will be the last game of the season, if
Kelowna wins; otherwise the series
will be a tie and another game will
have to be played. It is hoped that
there will be a record crowd to en-
courage the local boys to make a su-
preme effort to clinch the champion-
ship and thus equal the record made
this season by the football and base-
ball teams.

The Kelowna baseball nine firmly
established their hold on the cham-
pionship of the Okanagan Valley for
1921 by defeating Vernon on Thurs-
day in a close game, played on the
Recreation Ground, by 5 to 4. There
was a good attendance, and the en-
thusiasm of "fans" was maintained at
a high pitch throughout. Our base-
ball correspondent being out of town,
we regret a detailed account of the
game is not available.

Mr. T. C. MacNabb, Superintendent,
C.P.R., Revelstoke, has replied
to the request made by the Boards of
Trade of the Okanagan for a Sunday
boat service during the fruit shipping
season. He states in his letter that
there has always been "more or less"
of a boat service on Sundays, and for
this reason he thinks he can promise
that there will be a Sunday tug ser-
vice, whenever required, and that the
s.s. "Okanagan" will take care of ex-
press shipments on that day. There
is also a programme outlined for a
freight service out of and into the Ok-
anagan on Sunday, but he could not
see that there is any apparent nec-
essity for a passenger train or pass-
enger boat.

In order to ascertain the actual con-
dition of the lakeshore road between
Peachland and Summerland, Mr. F.
M. Buckland drove a Ford car over it
on Tuesday, and found that the state-
ments as to damage done by high
water were very much exaggerated.
He had to take down five fences er-
rected across the road by property
owners who seemed to think it had
been abandoned for good, yet, in spite
of the delays thus caused, he made as
good time as a car which took the
upper road between the two towns.
His opinion is that \$500 would put
the road into serviceable condition for
the rest of the season, and that the
government has no reasonable excuse
for refusing to carry out repairs. Mr.
Buckland was accompanied by Mr. J.
W. Jones, M.L.A., and pressure will
be brought to bear on the government
to open the road.

YOUNG PIGS for Sale—H. A. Wil-
lis, Okanagan Mission. 48-2p 48-2c

EAST KELOWNA

The contract for the school has been
awarded to Mr. Rogers, of Vancouver,
who will start work in a week or two.
We are sorry none of our local con-
tractors got the job, until Mr. Rogers,
who lately built the Woods Lake
school, is an experienced builder and
should turn out a fine building.

The cherry crop is now picked
and has turned out better than at
first anticipated. Messrs. McTavish
and Fitzgerald had an especially fine
crop. The fruit was particularly
large and clean this year. There was
some trouble at times in getting a
sufficiently large number of pickers
owing to the fruit ripening faster
than anticipated. The Rutland Sev-
enth-day Adventists were of great
assistance. Whatever their tenets
may be, they are certainly good pick-
ers.

We are glad to see Col. Moodie
about again and to hear that his eye,
though badly injured, has been saved.
Mr. Henry Armstrong has received
a copy of an Irish newspaper announ-
cing that his father, Mr. H. B. Arm-
strong, has been elected by acclama-
tion as member for Mid-Armagh in
the newly-constituted Ulster Parlia-
ment.

A travelling book-agent was round
the Benches on Monday and took sev-
eral orders. The books seem all right,
but what we can never understand is
how people who would go up in the air
if asked to pay \$5.00 for a book in a
store in town will cheerfully sign for
\$67.00 for a set of books from some
outside agent.

The smell of gasoline on the Benches
gets even stronger. We hear Mr.
Perry is going about in a car and
Mr. Alan Wright has just purchased
a Chevrolet truck.

Mr. C. Tucker spent a day in the
Court House this week—not as a pris-
oner, we are glad to hear, but as a
witness in the Dick collision case.

Mr. Priestley has ornamented his
place with a pair of handsome rubble
stone gate piers.

Mr. Lyons, who taught the Senior
Division in our school last term, has
written from Victoria. He says ev-
eryone at the Coast asks him why he
left the Okanagan and simply bom-
bards him with questions as to pro-
fits from orchards, prospects of crop,
etc. He forecasts a large immigration
from the Coast to the Okanagan in
the near future.

G.W.V.A. NOTES

Next Saturday is the regular meet-
ing night. On Saturday, August 6th,
Col. Edgett will be here to give us
an address on the results of the con-
ference at Port Arthur. There will
also be a musical programme that eve-
ning and a permit from the Liquor
Control Board has been applied for.

We are glad to see that the Domi-
nion Government, by Order-in-Council,
has turned over the canteen funds to
a Board of Trustees, consisting of
the President and Secretary of the
Dominion Command of the G.W.V.A.,
and two veterans in the Government
service. This fund should be of great
assistance next winter to relieve dis-
tress.

For the Convention at Port Arthur
in September it will be possible to get
a one-cent a mile rate for the dele-
gates. There appears to be no doubt
that Gen. Sir Arthur Currie will be
the new President. Earl Haig, hav-
ing succeeded in amalgamating all the
veterans' organizations in Great
Britain, will be at the Convention to
assist us accomplish the same thing
here. The organizer of the Grand
Army of United Veterans and his as-
sistant have disappeared and are re-
ported to have gone to the States.
They did useful work in the way of
providing an outlet for the extreme
element amongst the veterans, but
they also took some good men who
were induced to join by the idea that
there was political action by the veterans
of Canada was possible. That dream
is exploded now.

DECREASE IN ONION
AND POTATO ACREAGE

Statistics given out by the Domi-
nion Department of Agriculture place
the decrease in potato acreage
without the Dominion at 6 per
cent of last year's figures, or 736,200
acres as against 784,544 acres. The
acreage in British Columbia is given
as 17,100 this year as against 17,780
in 1920.

The decrease in onion acreage is
much more marked in British Col-
umbia than in Ontario, where it has
dropped from 1,550 acres in 1920 to
1,375 acres this year. The figures
for B.C. show only Vernon, with 400
acres as compared with 815 in 1920,
and Kelowna, with 325 acres as
against 635 last year, making a total
for the province of 725 acres this
year as against 1,450 in 1920.

The onion acreage in the United
States shows a total of 27,657 in 1921
as compared with 31,802 in 1920, or
a decrease of 13 per cent.

THE CORPORATION OF THE
CITY OF KELOWNA

NOTICE IS HEREBY GIVEN
under Section 10 of "The Pound By-
Law" that:

Local and Personal

Miss Violet Dillon left on Friday to spend a vacation at Hammond.

Mr. W. S. Barber left this morning for a visit to Wolsley, Sask.

Mrs. J. Atherton and family left on Friday to join Mr. Atherton in Calgary.

Mrs. Johnston, of Montreal, who had been visiting friends here, left on Friday for Berkeley, Cal.

Mr. George Mantle and Miss Jessie Mantle were passengers to Calgary on Saturday.

Miss Sandell, who had been spending a visit here, went to Vancouver on Monday.

Misses Edith and Bessie Haug returned on Monday from a visit to the prairie.

Mrs. T. K. Bernard and children, of Penticton, visited friends in Kelowna this week.

Dr. Shepherd returned on Monday from attendance at the Dental Convention at Vancouver.

Mr. Everett Fleming returned on Tuesday from Stettler, Alberta, in which neighbourhood he has been teaching school.

Mr. W. Lock, accompanied by his niece and nephew, Miss Margaret and Master Frank Fumerton, left yesterday for a visit to the Coast.

Mr. and Mrs. W. J. Smith, of Sharnavon, Sask., are visiting Mr. and Mrs. W. R. Trench. Mr. Smith is Mrs. Trench's brother.

Mr. J. G. Whiteacre, Western Superintendent for Mason & Risch, Ltd., paid a visit of inspection to the local branch on Friday.

Miss Elsie Cooper, a former resident of Kelowna, arrived from Vancouver on Monday and is visiting Mr. and Mrs. H. G. M. Wilson.

Mr. Johnston arrived on Monday from New Westminster, to visit his mother, Mrs. Johnston, Sutherland Avenue.

Mr. A. B. Winter, whose health has not been of the best for some time past, took passage on Monday for Denver, Col., where he proposes to take treatment for several weeks.

Mr. W. Marshall, Assistant General Manager, C.P.R. Telegraphs, Winnipeg, and Mr. George Wady, Inspector, C.P.R. Telegraphs, Revelstoke, paid a visit of inspection to the local telegraph office on Tuesday.

Mr. A. R. Mulholland, who was in the real estate and insurance business here about eight years ago, paid a short visit to town on Monday and Tuesday. He was accompanied by his father, Lately Mr. Mulholland has been resident in Los Angeles.

Three roistersers, William Brown, David Webb and John Haynes, all of whom had celebrated not wisely but too well, pled guilty in the Police Court this week to lack of moderation, and were each assessed \$50 and \$2.50 costs. The fines were paid.

Mr. J. S. Cowper, who sat in the Legislature from 1916 to 1920 as one of the members for Vancouver, was in town last week obtaining material for a series of articles he is writing for the "Vancouver World" on the Oriental question in the province.

Mr. J. M. Davison, C. P. R. agent, left on Wednesday on a vacation trip to Halcyon Hot Springs and the Windermere country in East Kootenay. His duties are being carried on by Mr. C. Foster, relieving agent, who arrived on Monday.

Mr. O. France, who was additional operator last summer at the local C.P.R. Telegraph office, arrived on Monday to take up similar duties this season, and the office is now open continuously on week days from 8 a.m. to 10 p.m. Sunday hours are 9 a.m. to 10.30 a.m. and 5 p.m. to 6 p.m.

Mr. and Mrs. F. W. Simmons, Miss Margaret Millie and Miss Violet Dillon returned on Wednesday night, July 13th, from a motor car trip that extended as far as Thompson Falls, Montana, and covered 1,500 miles. The experience was most enjoyable, with no mechanical trouble and perfect weather throughout except one day, when it was windy and dusty.

No report came to hand last week from the B. C. Markets Commissioner at Calgary, and his latest report has arrived too late for publication in this issue. As much of the information contained in these reports is of value to those of our readers who are growers and shippers of fruit and produce, we have asked the Commissioner, if possible, to expedite delivery of the copy he sends to The Courier, so that we can publish the report every week.

Chief Thomas and Constable Chaplin have had a busy time this week carrying out the instructions of the City Council to summon all motorists found exceeding the speed limit or in other ways committing a breach of the Motor Vehicle Act or the municipal by-law. No fewer than eighteen cases were brought before Magistrate Weddell for disposal on Tuesday and Wednesday, fourteen of them for speeding and four for running without lights. Six of the culprits were fined \$10 and \$2.50 costs each; one, \$10 and \$4.50 costs; one, \$5.00 and \$2.50 costs; seven were let go on payment of \$2.50 costs each, and three cases were dismissed. The campaign will be kept up until speed fiends learn to obey the regulations which have been made for the safety of themselves as well as of the general public.

BIRTH

NEWTON—To the wife of W. A. Newton, on July 18th, at the family residence, Patterson Avenue, a daughter. 48-1c

COUNTY COURT

Fasciaux vs. Dick

The only case at the session of the County Court held in Kelowna last week was that of Mr. Odile Fasciaux against Mr. H. Dick. The evidence was taken on Wednesday and His Honor Judge Swanson gave his decision on Thursday.

On Feb. 6th last Mrs. Fasciaux and some friends were motoring along Pendozi Street on their way to mass when their car collided with that of Mr. Dick and considerable damage was done to both vehicles. Mr. Dick, who was accompanied by Mr. Chas. Tucker, was coming down Rose Avenue, and, according to Mrs. Fasciaux and her witnesses, on arriving at Pendozi St. he first attempted to cross it but, after reaching the middle, he changed his mind and turned back and his indecision resulted in a collision. On the other hand, according to his own story and that of Mr. Tucker, Mr. Dick never attempted to cross Pendozi St. but, seeing that it was hopeless to get across in time and also that he had not sufficient time to bring his car to a standstill, he turned into the grass plot on his left, put his car against the fence and stopped his engine. Mrs. Fasciaux, however, owing, as he claimed, to some error of judgment also swerved onto the grass plot and collided with the car. His Honor decided in favor of Mr. Dick's version of the accident and dismissed the case with costs.

Mr. E. C. Weddell acted as counsel for Mr. Fasciaux and Mr. R. B. Kerr for Mr. Dick.

CULTIVATION OF FLAX

The opportunity that exists for the cultivation of flax and the probability of a ready market being found for all that Canada can produce is suggested by the fact that the production of flax in Russia fell from 1,151,998,320 lbs. in 1913 to 90,282,000 lbs. in 1920, a drop of over a billion pounds. In view of this state of affairs increased attention is being given by scientists in this country to research regarding the growth of flax. A series of plots of new varieties have been sown at Ottawa to be harvested for fibre purposes. Arrangements have been made to carry on the retting under suitable conditions, so that the quality of the fibre may be fairly representative in order that the different sorts can be easily compared. There are two principal grades of flax fibre, warp and weft, which are further divided according to qualities. Warp is generally broader fibred, stronger and more ribbony flax, and the yarn spun from this is used by weavers for the longitudinal threads of the cloth. Weft is soft, more pliable flax, not necessarily so strong as warp and is used for the yarn which grows in the shuttle running across the cloth to fill it up. The value of flax is primarily dependent on its strength. The color should be uniform, but spinners do not attach so much importance to color as they used to do, provided that the substance has the required strength and quality. Silkiness and oiliness are essential to a high standard. The removal of all slime and dirt from the flax, especially at the root ends, is another necessity.

VIVID PICTURES OF NEW YORK NIGHT LIFE

"While New York Sleeps" Abounds With Spectacular Incidents

The press agent who has announced "While New York Sleeps," an eight-reel Fox Special, which is billed for Wednesday, July 27, at the Empress Theatre, as "the most sensational and artistic melodrama of all time" does not realize how close he has come to the mark. Competent critics who have seen the picture cannot find it in their hearts (for their experience) to disagree with him.

Night-life in New York among the several strata of society in that cosmopolitan city is pictured with wondrous fidelity in the three acts or episodes which compose the picture. The play abounds with spectacular incidents and yet the thing that remains in the memory after seeing "While New York Sleeps" is the almost intolerable suspense with which Director Charles J. Brabin has succeeded in endowing his picture. Some magnificent views of the bright spots along The Great White Way have been used in the picture. For instance, there is a dancing number from Florenz Ziegfeld's popular Midnight Frolic girl-and-music show, together with gorgeous cabaret scenes from the Cafe Palais Royal.

Then the action plunges over to the East side, where we see a tragedy in the lives of a tempestuous woman and her puny, gentle-hearted husband whom she despises, the saintly, paralytic father of the man, and the gangster leader of a band of thieves. In this episode occurs a thrilling revolver battle between the famous New York police beat and a bunch of desperadoes.

In addition to the remarkable tenacity of the three stories and the interest in connection with the spectacular features that the director has introduced into the picture, are the splendid characterizations effected by the small but eminent cast of players who portray the principal parts. Seldom if ever in the history of the screen has any group of players acquitted themselves so admirably.

The cast is composed of Estelle Taylor, one of the most beautiful and capable of the younger actresses of the screen today; Marc McDermott, who has for many years enriched the screen with his ability; Harry Southern, nephew of E. H. Southern, William Locke and Earl Metcalf, a star in his own right.

"While New York Sleeps" is a picture that no devotee of better art on the silver sheet can afford to miss.

WINFIELD

(WOODS LAKE)

The Rev. Mr. Campbell-Brown has made sufficient progress since his operation to take up his duties again, and conducted the Presbyterian service on Sunday, spending the night with Mr. and Mrs. Powley and returning home Monday morning.

Mr. and Mrs. McDonagh were visited during last week-end by the latter's father, Mr. Lidstone, who brought Master Alec McDonagh back home after a holiday of several weeks.

Mr. and Mrs. J. Metcalf are staying at Mr. and Mrs. Claggett's. Mrs. Metcalf, we are sorry to hear, is not greatly benefited by her treatment in Vancouver.

A great improvement has been made to the road past the Hall by filling in the wash-out made during several winters and by putting in a substantial flume to carry off surplus water. There should be less wading next winter.

The next Farmers' Institute meeting is down for Tuesday, the 26th, instead of the usual Thursday. Members should be out in strength to hear interesting and important talks by Mr. R. H. Helmer on "Rotation of Crops" and Mr. H. H. Evans on "Fire-blight." In view of the trouble we have with fire-blight this year, we shall be glad to get something definite on the subject.

Summerland ratepayers will again vote on the school by-law, which failed to receive the necessary three-fifths vote a few weeks ago.

THE COOLEST PLACE IN SUMMER

FRIDAY AND SATURDAY, JULY 22-23
First of a Series of Tom Mix Photoplays

TOM MIX in "The Cyclone"

Scenic charm and spirited outdoor adventure are combined in this Tom Mix picture. Tom is not a hero to be circumscribed by ordinary rules and conventions. He does the ordinary things as well as any hero could and always adds a little bit for good measure. The story is laid in Canada, just above the International boundary line. As a mounted police he undertakes to clean up a gang of crooked ranch laborers, operating in connection with Chinese smugglers. And this he does in real western style. Also the comedy, "WEDDING BELLS OUT OF TUNE"

Saturday Matinee, 3.30, 10c and 25c. Evening, 7.30 and 9, 20c and 35c

MONDAY AND TUESDAY, JULY 25-26

POLI NEGRI IN

"GYPSY BLOOD"

The Star of "Passion" Gives Another of Her Wonderful Portrayals Adapted to the Screen from Prosper Meime's "Carmen"

Pola Negri's cigarette maker is a piece of uncompromising realism; a heartless, ignorant, unscrupulous, basely reared Spanish gypsy without one redeeming trait; a beautiful animal whose friendship is a curse and whose death at the hands of Navarro is richly deserved. The Polish actress is absolutely faithful to her conception of the character, and plays with a finish and that rare ability to register a dozen shades of emotion where the common run of players would register but one, that gives her a unique place among the stars of the film.

COMEDY ATTRACTION: "AN OVERALL HERO"

Evening, 7.30 and 9, 20c and 35c

WEDNESDAY AND THURSDAY, JULY 27-28

William Fox Presents the Eight-Reel Melodramatic Feature

"While New York Sleeps"

"While New York Sleeps" is a high-strung trinity of stories whose scenes move in tragic revelation, dark soul interiors suddenly illumined with lightning flashes on criminal tendency. The picture is admirably balanced amid the upper and under-worlds of a great city. It realistically pictures human beings, human emotions and human destinies, upon the groundwork of social conditions and principles of the present day. There is tremendous sincerity united with skill and a promise of the drama of immediate actuality. Three performers—Estelle Taylor, Marc McDermott and Harry Southern—dominate the picture with their own striking and attractive personality. In "While New York Sleeps" we are given a picture that is a dramatic revelation. Also FOX NEWS AND POLLARD COMEDY, "DEAR DEPARTED"

Evening, one performance, 8.15, 20c and 35c

REPORT ON CROP AND WEATHER CONDITIONS

(Continued from page 1)

oos, but the quantity is not large. All fruit is sizing up nicely, and early apricots and peaches should be starting to move in about ten days' time.

Summerland

The weather conditions are ideal for cherry picking. Bings and Lamberts are some of the finest this season that have ever been shipped out of this section.

Early peaches and apricots are coming along fine. Plum cotas and "May-flower" peaches are moving out now. Small shipments of tomatoes are moving out. Black and red currant and gooseberry harvesting is over.

Kootenay and Arrow Lakes

This week will see the strawberry crop pretty well all cleaned up. Local prices have held up good for the season, and the yield has been a little above the average.

Raspberries are coming on the market in quantities now, the first consignment arriving on the local market the first week in July. Reports are that the crop will be a good one and prices should hold up well here on the local markets. Shipments are going forward to the Prairies from many sections of the District.

Early potatoes for the district are on the market, and the size and quality of the tubers are good for this time of the year. The potato crop throughout the district is in the best of condition. The June rains gave this crop a fine start and there should be a good yield at harvest time.

Haying operations are in full swing in most sections, and from reports and personal knowledge is one of the best for several years. The weather has been fine for this line of work.

Onions and cabbage have been hard hit this season owing to the ravages of the Onion Maggot and the Cabbage Maggot. Other vegetables are making excellent growth.

An estimate of the apple crop and other tree fruits for this District on the first of July was as follows: Apples, 65%; pears, 75%; crabs, 55%; plums and prunes, 80%; sour cherries, 85%; sweet cherries, 55%. This estimate is based on a normal crop. Indications at the present time are that most all the fruit will be much better in size this year than last, and the No. 1 Grade should be increased as Apple Scab has not shown up very badly this season.

Creston

Up to July 9th 12,000 crates of strawberries had been shipped from Wyndell, Duck Creek alone, and this week will most likely see the end of the shipping season. The total shipments from the Valley are expected to amount to 16,000 crates. This is equal to the 1916 output.

Raspberries are now being shipped in good quantities. The first crates on the market were received at Erickson, June 28th. Depending on the rainfall, the output should last a few more days.

The cherry crop is light this year, the trees carrying about 50 per cent of a load. Bings are arriving in fair quantities.

The Creston Fruit Growers' Union are enlarging their packing house at Creston and installing a mechanical grading machine, thus introducing central packing which will ensure the quality and uniformity of the Valley's output.

CROP ESTIMATE

We are publishing this week the first crop report of the season for this District, from the Main Line to Keremeos. This may appear rather early in the season to be getting out a report of this kind, but we feel justified in doing so in view of the quick development of the fruits, and the very close check which has been made throughout the Valley in obtaining figures for this estimate.

Below is the estimated number of boxes and cars for each section in the District. Car-loads are estimated on the following basis: Apples, 700 boxes to the car; crabapples and pears, 800 boxes to the car; cherries, plums, prunes, apricots and peaches, 1,000 boxes to the car.

Salmon Arm and Sorrento		
	Boxes	Cars
Apples	135,000	193 1/2
Crabs	10,500	13 1/2
Pears	2,000	2 1/2

AN EXHIBIT FOR THE
NEW WESTMINSTER FAIR
The President of the Royal Agricultural and Industrial Society Visits Kelowna

With the object of interesting the people of Kelowna district in making an exhibit at the annual show of the Royal Agricultural and Industrial Society of British Columbia, which will be held at New Westminster from September 12th to 17th, Mr. Nels Nelson, President of the Society, paid a visit to Kelowna on Monday morning.

He interviewed a number of citizens and finally came to the conclusion that Mr. F. R. E. DeHart was the

most interested man in whose charge the London opus. On the latter of enlisting local Mr. Nelson of exhibiting at the Provincial in November, vent overlapping the opinion through individual to pre-

RUTLAND

Mr. A. W. Money returned on Tuesday from Quesnel.

Rutland Troop of Boy Scouts plan to hold their annual camp shortly, possibly in the vicinity of Mission Creek. Regular meetings of the Troop will be held on Wednesdays from now on.

Work commenced on Friday last on the permanent partition to divide the assembly hall in the school.

A very enjoyable ice cream and fruit social was held on Rutland School lawn on Thursday evening last under the auspices of the Rutland Women's Institute. The weather was favorable and the affair was well attended. An excellent programme of vocal and instrumental numbers was rendered. Mr. J. W. Jones, M.L.A., occupied the post of chairman. The lawn social was followed by a dance in the School House, the last event of that kind that will ever be held in Rutland School in all probability. With the floor in excellent condition and Barrett's orchestra in top form, the large attendance thoroughly enjoyed themselves.

COUNCIL IS ASKED TO TAKE OVER INSTRUMENTS

Subscribers Dissatisfied With Present Status of City Band

While the musical organizations of most of the other towns in the Okanagan are recovering from the shattering effects of the war as regards their membership and proficiency, and Penticton and Summerland, in particular, are enjoying occasional operatic concerts furnished by their respective Bands, Kelowna lags behind with its Band in a semi-moribund condition. In the spring of 1920 a number of the citizens subscribed liberally towards the purchase of new instruments and the City Council made a grant, but the results were disappointing, as the Band made but two or three appearances in public and finally lost its leader. An attempt has been made this year to reconstitute it, but with a very limited measure of success, and the disappointment of the subscribers has culminated this week in the circulation of a petition, to which about fifty signatures have been obtained, asking the Council to call in the instruments and the funds, which, it is stated, have not been devoted to the purpose for which they were collected, to assume control and make disposition of the instruments to such responsible person as they deem fit to inaugurate and direct a City Band properly so-called and recognized by the Council.

It would certainly help to simplify matters if the City Council would act as perpetual trustees for any band instruments purchased by popular subscription, which would provide for continuity in the event of a band organization becoming moribund, as in such event the instruments would at once be called in and stored by the City until such time as a responsible body had once more been formed, to which they could be handed over. The petition will be presented at the regular meeting of the Council next Monday night.

REPORT ON CROP AND WEATHER CONDITIONS

(Continued from Page 7)
